MEETING MINUTES

Write down the subjects discussed during the meeting and clearly indicate assigned tasks, actions planned, deadlines that is advised/planned to be executed below.

3. Topics, Issues discussed during the meeting and Decisions taken

1. It was decided that the most important part of the design report are the test cases. We will focus on test cases, we may not come up with 50 test cases but we will write the expected results.
2. A few parts of the report were clarified. For our project, we will skip "Hardware/software mapping", "Persistent data management", "Access control and security" and "Subsystem Services" parts as they are not relevant to our project.
3. We will try to customize the appearance of the robot in the simulation.
4. Next progress meeting will take place in 3-4 weeks, before March ends.
